The **Labcold** Sparkfree range is engineered to store flammable materials safely with no sources of ignition inside the chambers. Anything that could cause a spark is located outside of the chamber.

Warning: Do not store open containers of volatile substances in this freezer.

Did you know that 25% of chemical accidents are caused by improper storage?

Source: US Chemical Safety and Laboratory Investigation Board

Designed specifically for laboratory safety with a sparkfree interior and factory fitted with a lid lock for optimum security. This model comes with a storage basket to assist with organisation. Please ask at time of order for additional baskets.

This chest freezer has manual defrost for greater operator control and is backed by a one year UK parts and labour warranty.

* Please note this product may only have a mains indicator light
