

LABCOLD™

medical & scientific refrigeration

CLAIM YOUR **2** YEAR WARRANTY

Fitted with a Dual Compressor to ensure greater temperature control and peace of mind in the event of failure of one of the systems. Each complete refrigeration system provides 100% performance, sufficient to cool down and maintain temperatures correctly without help from the second compressor.

Hygienic touch screen controller

Digital keypad lock

An asymmetric change over ensures even distribution of workload, resulting in even wear of the compressors and also allows for one to defrost while the other is still running. The two independent systems provide back up should an issue develop plus there is no need to move contents immediately if a problem is identified.

Designed and manufactured in the UK in our Basingstoke factory, this Blood Bank refrigerator is a certified Medical Device in accordance with Directive 93/42/EEC and is compliant with BS4376:Part 1:1991.

Labcold blood banks are tested for 72 hours and calibrated by our UKAS accredited calibration laboratory #8898 before they are dispatched and all come with a FREE 2 year parts and labour warranty.
