Complies with BS4376:Part 2:1996	✓
Certified Medical Device in Accordance with UK MDR 2002	✓

Designed to store large quantities of frozen plasma at the optimum temperature, safely and securely this Labcold plasma freezer is a certified medical device.

Fitted with a touch screen and alarm controller which displays both air and load temperatures, there are alarms for high and low temperatures, door open and mains fail states. It also has battery back-up, so alarms even in the event of a power failure. A chart recorder, door lock, remote alarm contacts and access port are fitted as standard.

Labcold can commission, calibrate and maintain your freezer. Why not ask for a quote when you place your order?

Storage bins

We offer a choice of stainless steel or plastic bins designed to keep stock tidy without restricting air flow.

Stainless steel bins

Self assembly plastic bins
