

LABCOLD STATEMENT OF ENVIRONMENTAL POLICY

Labcold Ltd is committed to minimising the impact of its activities on the environment and has adopted the following policy objectives:

- To ensure the Company meets or exceeds all legislative and regulatory instructions regarding environmental pollution and waste management.
- To minimise waste by evaluating operations and ensuring that they are as efficient as possible.
- Where technical solutions exist this Company will endeavour to re-use or recycle waste products such as packing materials, or if not possible to ensure that such waste is disposed of in an environmentally responsible manner.
- Ensure that refrigerant gases, volatile solvents and potentially toxic or harmful liquid materials are not released to the environment but will be collected and passed to a suitable qualified and registered organisation for disposal in an approved manner.
- Where choice exists to seek to use suppliers who adopt a responsible attitude to environmental issues. Similarly, where possible, products and component parts or materials will be selected with consideration of environmental impact and future disposal needs.
- To actively promote recycling both internally and amongst its suppliers.
- Minimise toxic emissions through careful selection and use of its fleet and encouragement of the use of public transport, video/ telephone conferencing where appropriate.
- It is the responsibility of each member of staff to observe and implement the Board's policy.
