## RAFR21262 Solid Door Advanced Laboratory Freezer

Part Number	RAFR21262
Capacity (Litres)	571
Style	Freestanding
Exterior Dimensions (HxWxD)	1980 x 720 x 820mm
Energy Consumption	4.56 kWh/24h
Operating Temperature	-20°C
Temperature Set Point Range	-18°C to -22°C
Interior Construction	Stainless Steel
Exterior Construction	Powder Coated Stainless Steel
Shelves	4
Shelf dimensions (W x D)	530 x 650mm
Door Hinging	Right
Door Style	Solid
Remote Alarm Contacts	Optional
Front Lockable Castors	✓
Door Lock	✓
Access Port	Optional Extra
Digital Temperature Control	✓
Digital Temperature Display	✓
High Temperature Alarm	✓
Low Temperature Alarm	✓
Door Open Alarm	✓
Maximum Temperature Display	✓
Minimum Temperature Display	✓
Auto Defrost	✓
Fan Assisted Cooling	✓
Environmentally Friendly Insulation	✓
Eco Friendly Refrigerant	✓
Ammonia Free	✓

Robustly constructed from stainless steel this freezer from the **Labcold** Advanced Range is designed to provide close temperature control for temperature sensitive items.

In addition, remote alarm contacts can be fitted as well as access ports.

The air is continually circulated internally to ensure that where ever product is placed inside the cabinet, it stays within range and an advanced auto defrost system provides class leading temperature stability and uniformity.

There is no internal 'step' and the interior is curved making it easy to clean and stock. The 4 heavy duty shelves are fully adjustable and more shelves can be purchased as an optional extra. The robust door is lockable and for increased security and convenience, self closing.

Insulated with Envirofoam, which is derived from plant rather than petrochemical oils, the refrigerant is also ammonia, HCFC and CFC free.

The cabinet is fitted with heavy duty, lockable castors making it easy to manoeuvre and clean behind which means this Advanced Laboratory freezer is ideal for demanding environments.
