

Labcold -80°C Ultra Low Temperature Freezer LULT3585

Using tried and tested cascade refrigeration this quiet and compact Ultra Low Temperature freezer from Labcold features VIP insulation to improve energy usage and maximise internal space without increasing external size.

The controller displays the temperature and features high and low temperature and a door alarm plus it has battery back up so will function in the event of a mains failure.

Intuitive Control Panel

This freezer also has a door lock plus has an access port and remote alarm contacts and can fit up to 5 stainless steel drawers (optional extra) to ensure the contents can be organised.

For extra peace of mind, this freezer has a FREE 5 year parts warranty and a 3 year labour warranty.
