

Developed specifically for the safe storage of platelets at the optimum temperature this Incubator features a keypad lock for security and a built in chart recorder. It has been designed to meet the BSQR standard for storing platelets and comply with MHRA regulations.

Like the rest of the Labcold Blood Product Storage range this incubator is a certified medical device in accordance with UK MDR 2002.

Hygienic, easy to read display and controller

Simulated load alarm

This incubator has enough capacity to hold a Labcold flatbed Platelet Agitator (model number AGIT1006MD) with a 6 tray rack which can be ordered separately.

When used with a Labcold Agitator the incubator features a motion sensor alarm to alert you of agitator failure and for extra safety the agitator will stop moving when the door is opened and only resume motion when the door is shut.

RLPI0110MD Platelet Incubator (Medical Device)

Part Number	RLPI0110MD
Capacity (Litres)	110
Style	Bench Top
Exterior Dimensions (HxWxD)	775 x 590 x 635 mm
Interior Dimensions (HxWxD)	450 x 505 x 392 mm
Energy Consumption	6.7 kWh/24
Operating Temperature	+22°C +/- 2°C
Interior Construction	Stainless Steel
Exterior Construction	Powder Coated steel
Door Style	Glass
Door Hinging	Right
Open Door alarm	\checkmark
Load Temperature Alarm	\checkmark
