

Vaccine Transport Bags

These wipe clean vaccine carry bags are designed to enable the safe and secure transportation of vaccines.

They provide a more efficient alternative to polystyrene vaccine transport and key features include:

- wipe clean and waterproof material that is anti-mould and anti-bacterial
- no Velcro
- anti-rot stitching for easy clean to meet infection control requirements
- easy handling including ladder handles, integrated trolleys, adjustable shoulder straps and grab handles
- optimising thermal qualities: insulating material, padded zip protection, thermal separators, pillows, coolant holders and inner lid
- heavy duty, durable components including 250D tarpaulin, YKK zips and metal fastenings

These bags are available in a range of sizes and feature a collapsible design for easy storage and padded handles and straps.

Part Number	Capacity (litres)	Internal Dimensions h x w x d	External Dimensions h x w x d
VACCBAG3	3	60mm x 355mm x 245mm	110mm x 370mm x 270mm
VACCBAG10	10	170mm x 395mm x 255mm	220mm x 410mm x 280mm
VACCBAG20	20	290mm x 395mm x 255mm	340mm x 410mm x 280mm
VACCBAG30	30	300mm x 415mm x 315mm	350mm x 430mm x 340mm

Gel and ice packs are available as an optional extra plus some bags can be purchased with an integrated aluminium trolley designed to make transporting vaccines to the community easy. We also recommend the use of a Labcold data logger with this product. Why not ask for more details when you place your order?
