FREE manufacturers' calibration certificate from our UKAS temperature calibration laboratory #8898	✓
2 Year UK Warranty	✓

Robustly constructed from stainless steel this refrigerator from the Labcold Advanced pharmacy range is designed to provide close temperature control for temperature sensitive vaccines, medicines and reagents.

The fan circulated interior ensures that there are no hot or cold spots and the robust construction means it's ideal for busy pharmacies where the door is frequently opened. Fitted with a sturdy door lock for extra security, remote alarm contacts and an access port are also fitted as standard.

For extra peace of mind, this Advanced Pharmacy refrigerator comes complete with a calibration certificate from our UKAS temperature calibration laboratory #8898 and is backed by a 2 year parts and labour warranty.*

*Parts only warranty outside of the UK
